

11 May 2018

**TO MEMBERS:**

## **CEAS Members' Forum 2018**

Please find attached the details of this year's Members' Forum meetings. I encourage you to attend the meeting most convenient for you and to bring all your key senior staff and up and coming younger leaders.

This year I will be joined by past Chairman of CEAS, Arthur Park, Chairman of I&G, Jim Dobbie as well as Ross Meijer from Aon. The seminar will be approximately 1 hour duration with plenty of time for discussion.

Given the large number of significant issues affecting our industry currently, we strongly encourage as many up and coming leaders from member firms coming along as possible. We believe enhancing the awareness of these key people in your organisation is one of the best risk management measures you can do! Given the issues facing us all, we look forward to plenty of discussion, so please come prepared with any questions or observations.

CEAS is a risk management organisation which is committed to investigating ways to minimise the risks in running your practice and to enhancing the Group insurance package by tailoring it to meet the needs of individual members. This forum provides valuable feedback to the Board on issues facing members and allows the Board to inform members of the current issues facing the industry and the Society in particular.

Issues to be covered will include:

- Update from Wellington and legislative changes impacting on engineers.
- New Zealand insurance matters, global trends and how these may impact on us.
- Update on CCCS, SFA and Producer Statements.
- Case histories and general liability issues to be aware of.

Please email or fax back your details on the reply form, including the names of any other principals, senior staff members and future leaders who will be attending. Please remember to identify the venue you will be attending.

In addition to the attached forums, it is our intention to hold a further forum in Queenstown later in the year for our southern members.

I look forward to meeting you.

Craig Lewis  
**Chairman**
